PORTFOLIO · 2026

Edward David Alarco Campos

Web Developer building conversion-focused landing pages, sales funnels and e-commerce

5+ years building websites, web apps and e-commerce

WordPress · WooCommerce · Shopify · Magento · React · PHP

Lima, Peru · Spanish (native) · English (B2)

01 · ABOUT

Turning campaign ideas into pages that convert

I am a Web Developer with more than five years of experience building websites, web apps and e-commerce stores. I started at the marketing agency InVitro, building campaign pages and e-commerce sites for clients across different industries.

From there I worked as Tech Lead & WordPress Developer at Fulltimeforce and as an engineer at NTT DATA on e-commerce projects. I enjoy working side by side with marketing, design and growth teams to turn campaign ideas into funnels: clear landing pages, forms that capture leads, and integrations that deliver those leads to the sales team.

EXPERIENCE **5+ years**	BASED IN **Lima, Peru**
LANGUAGES **Spanish (native) · English (B2)**	EDUCATION **Systems & Computer Eng., UTP**

Landing pages & sales funnels

Campaign and service pages with a clear message, one primary action, repeated CTAs, social proof and quote, booking or registration flows.

Lead capture & CRM integration

Forms connected to CRMs through APIs and webhooks, so every lead reaches the sales team without manual work.

Fast, measurable, optimizable

Fast-loading, responsive pages with technical SEO, analytics tagging and room for testing: Google Analytics, heatmaps and A/B tests.

E-commerce that sells

WooCommerce, Shopify and Magento storefronts, from product catalogs to quote-request funnels.

02 · SKILLS & TOOLS

Design, conversion and code in one workflow

A

Design & UX

Translating designs and brand guidelines into clean, responsive layouts with a clear visual hierarchy.

- Landing page layout
- Responsive design
- Reusable components
- Elementor
- Divi
- Oxygen
- Bricks
- Visual builders

B

CRO, SEO & performance

Pages built to convert, to be found and to load fast, with the tracking needed to keep improving them.

- Conversion funnels
- Lead forms
- CRM integration
- Google Analytics
- Heatmaps
- A/B testing
- Technical SEO
- Local SEO
- Web performance
- Responsive QA

C

Front-end, CMS & e-commerce

Custom themes, plugins and integrations on the platforms marketing teams already use.

- WordPress
- WooCommerce
- ACF
- Shopify
- Magento
- HTML / CSS / SCSS
- JavaScript / jQuery
- React
- Vue
- PHP
- Laravel
- MySQL
- REST APIs
- Webhooks
- Git
- Docker

How I build a funnel

01
Brief
Campaign goal, audience and offer with Marketing

02
Structure
Page sections, CTAs and funnel steps with Design

03
Build
Fast, responsive page on the right CMS or stack

04
Connect
Forms, APIs and webhooks that route leads to sales

05
Optimize
Analytics, heatmaps and A/B tests with Growth

03 · FEATURED PROJECT 01 / 06

Delcom

B2B Tech Accessories · Peru

Quote-request catalog for a tech accessories distributor

Spanish-language WooCommerce catalog for computer and audio-video accessories (HDMI cables, adapters, enclosures). Instead of a classic cart, the funnel is built around requesting a quote, so every product becomes a lead.

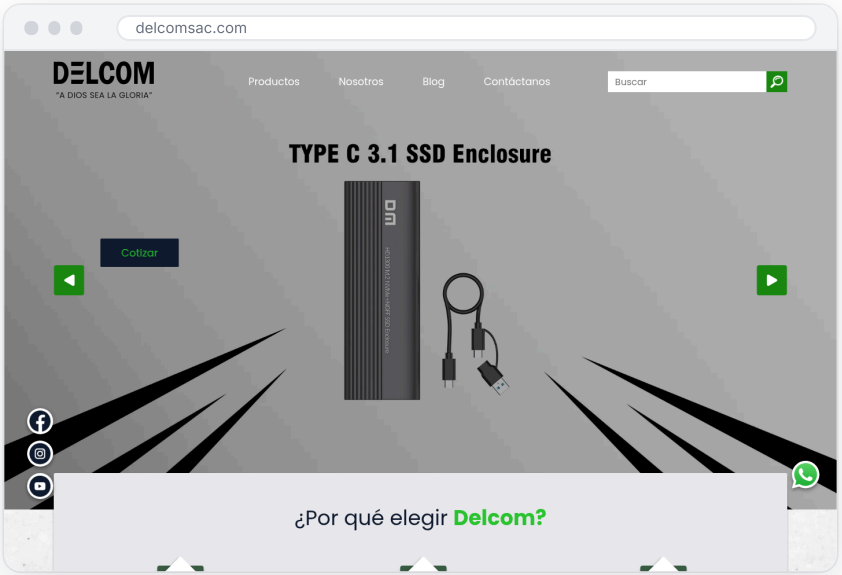

CONVERSION ELEMENTS

- "Cotizar" (Request a quote) CTA on the hero and on every product card
- Multi-product quote form: name, email, phone, up to 4 products with quantities
- Floating WhatsApp button for instant contact
- Brand filters and "Why choose Delcom?" trust block (warranty, fast shipping, quality)

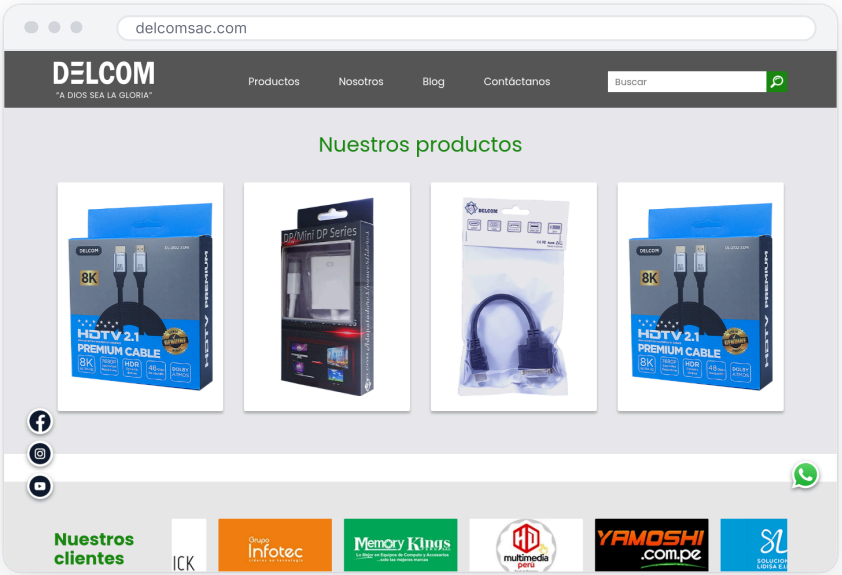

STACK

WordPress · WooCommerce · Contact Form 7 · Google Tag Manager

Product grid with quote CTAs

Page flow · top of page

03 · FEATURED PROJECT 02 / 06

Laurels Property Partners

Real Estate · United Kingdom

Lead-generation site for a property agency

Home page for a UK estate agency positioned as “a new approach to property”. The page is structured to move homeowners toward one primary action: booking a property valuation.

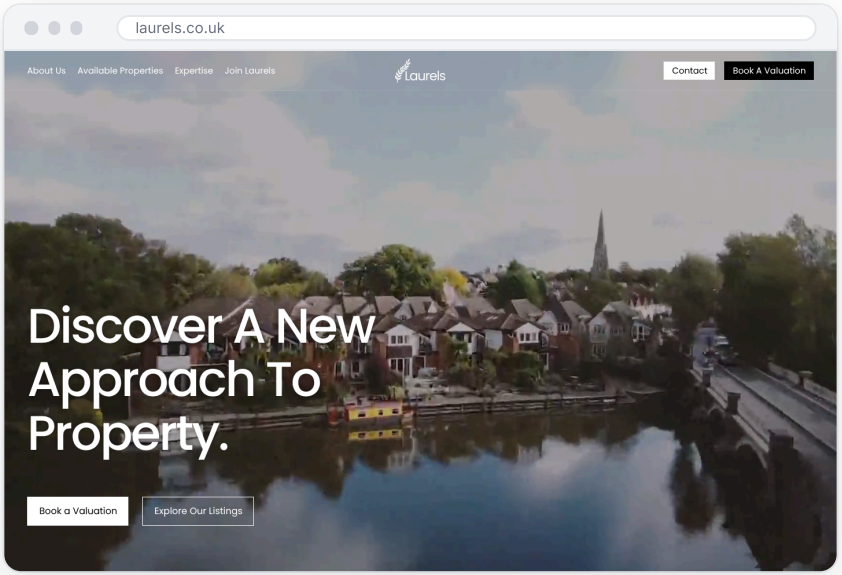

CONVERSION ELEMENTS

- Primary “Book a Valuation” CTA repeated in the header and hero, plus “Explore Our Listings”
- Instant Property Valuation lead form with geolocation and Cloudflare Turnstile spam protection
- “Successes” carousel of sold properties as social proof
- Secondary funnels: available properties and “Join Laurels” recruitment

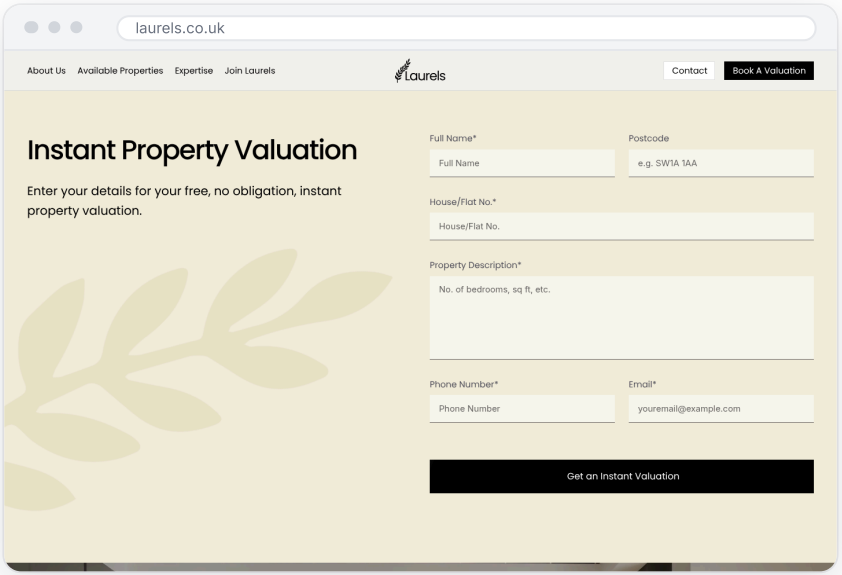

STACK

WordPress (custom theme) · Gravity Forms · Turnstile · Google tag

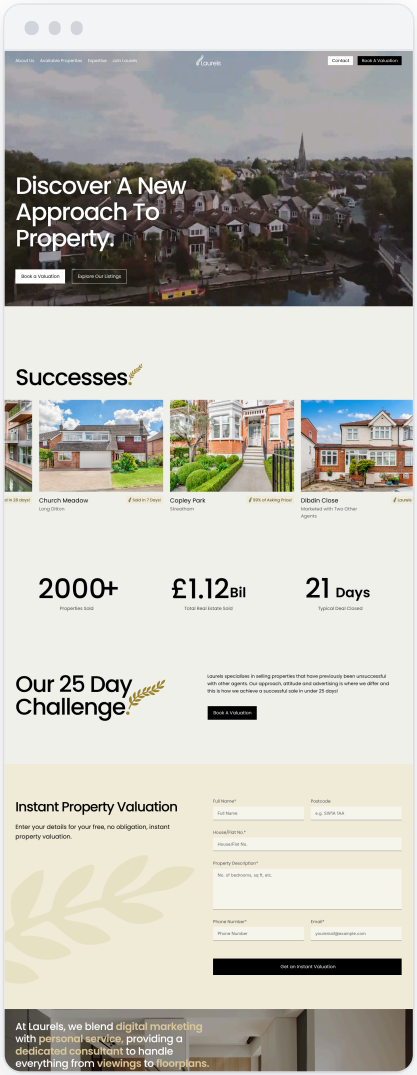

laurels.co.uk →

Above the fold · desktop 1440 px

Instant valuation lead form

Page flow · top of page

03 · FEATURED PROJECT 03 / 06

Dr. Amber Brown

Personal Brand · Financial Wellness

Personal-brand funnel with a lead magnet

Site for a physical therapist, educator and entrepreneur focused on financial wellness. The page guides visitors from her story to clear next steps: a consultation, a free guide or a speaking inquiry.

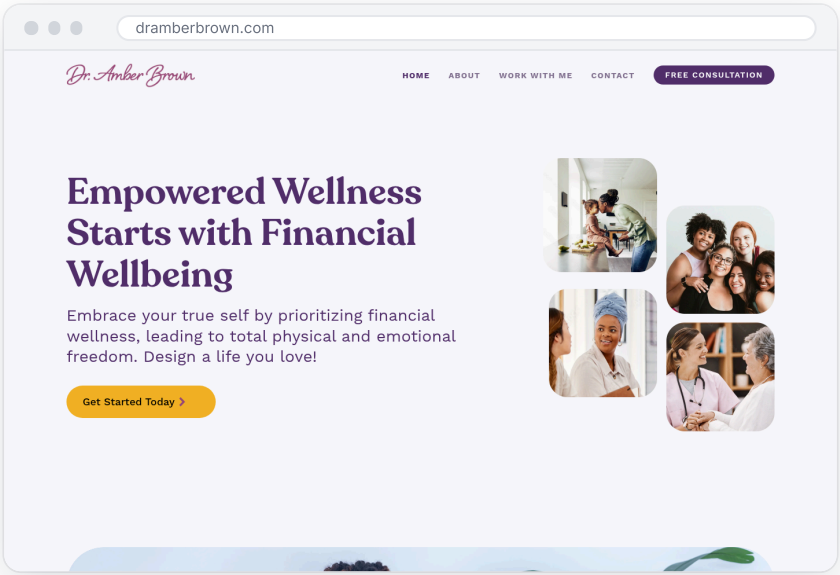

CONVERSION ELEMENTS

- “Free Consultation” button pinned in the header; “Get Started Today” hero CTA
- Lead magnet banner: “Free Guide to Empowered Wellness” with a “Download Guide” CTA
- “Invite Dr. Amber to Speak” section with a speaking-consult inquiry form
- Story-led sections (Financial, Emotional, Physical) leading to “Work with Dr. Amber” and “Learn More”

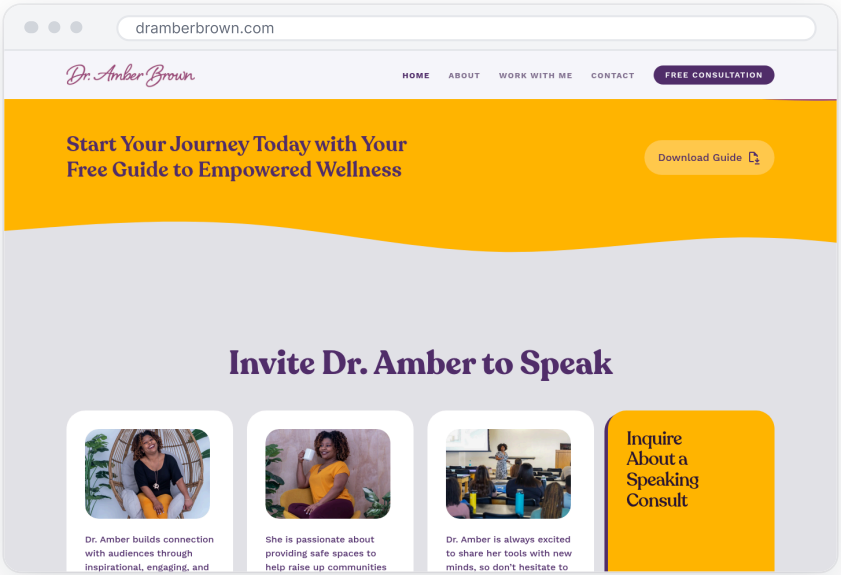

STACK

WordPress (custom theme) · Gravity Forms · WP Rocket

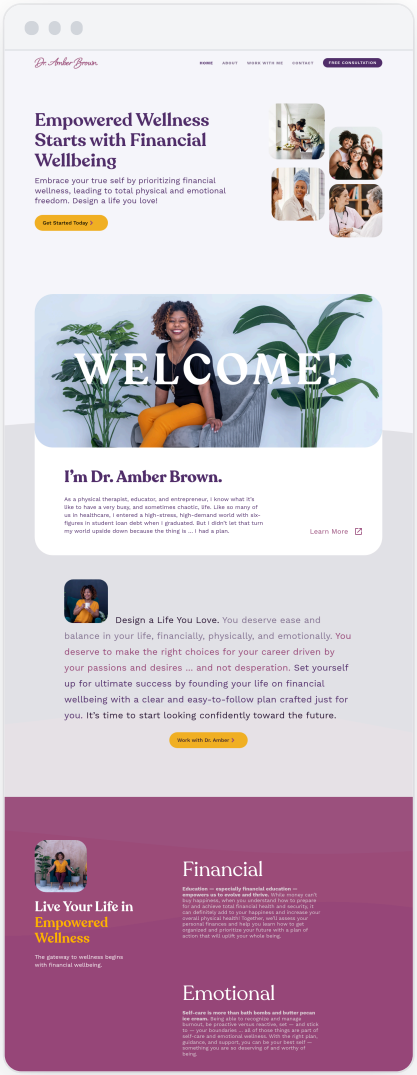

dramberbrown.com →

Above the fold · desktop 1440 px

Lead magnet and speaking inquiry

Page flow · top of page

CoinAlts Fund Symposium

Events · Crypto & Digital Assets

Event landing page with three conversion paths

Landing page for a symposium for crypto and financial-services experts. It serves three audiences at once (attendees, sponsors and speakers), each with its own CTA and form.

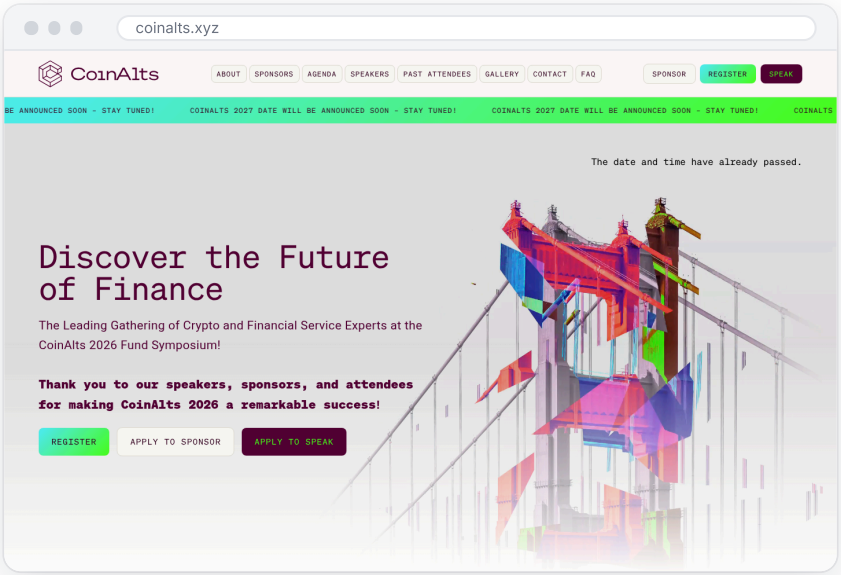

CONVERSION ELEMENTS

- Three parallel CTAs in the header and hero: Register, Apply to Sponsor, Apply to Speak
- Announcement ticker and event countdown to create urgency
- Tiered sponsor logo wall as social proof
- Sponsorship inquiry form plus agenda, speakers, gallery and FAQ sections

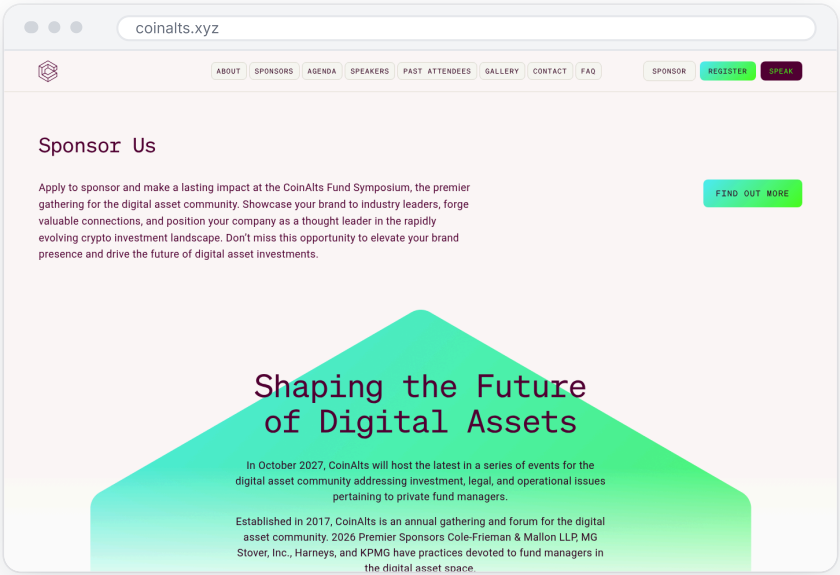

STACK

WordPress (custom theme) · WooCommerce · Gravity Forms · Turnstile · Google tag

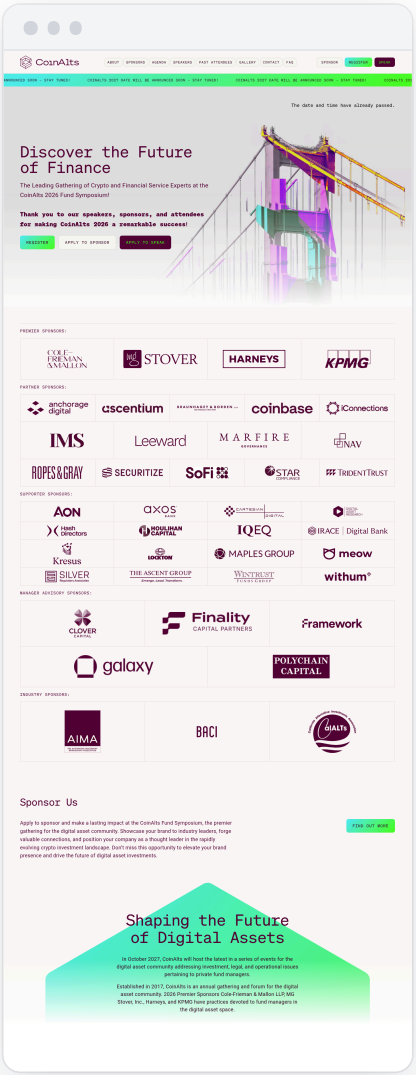

coinalts.xyz →

Above the fold · desktop 1440 px

Sponsor acquisition section

Page flow · top of page

03 · FEATURED PROJECT 05 / 06

Style Capital

Image Consulting · Personal Style

Service and membership funnel for a style strategist

Site for a style strategist who frames a wardrobe as an investment (“Style is a currency”). The page explains the method step by step and then offers services and a paid monthly edit.

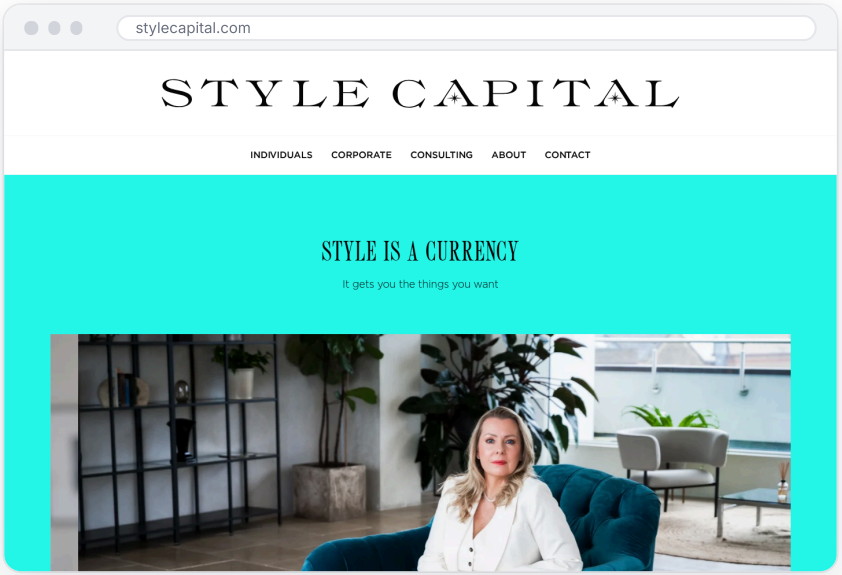

CONVERSION ELEMENTS

- Audience-based navigation: Individuals, Corporate, Consulting
- Three-step process section (palette, core style, smart wardrobe) leading to “Learn More”
- Client testimonials carousel as social proof
- “Subscribe Now” to The Style Capital Monthly Edit (membership)

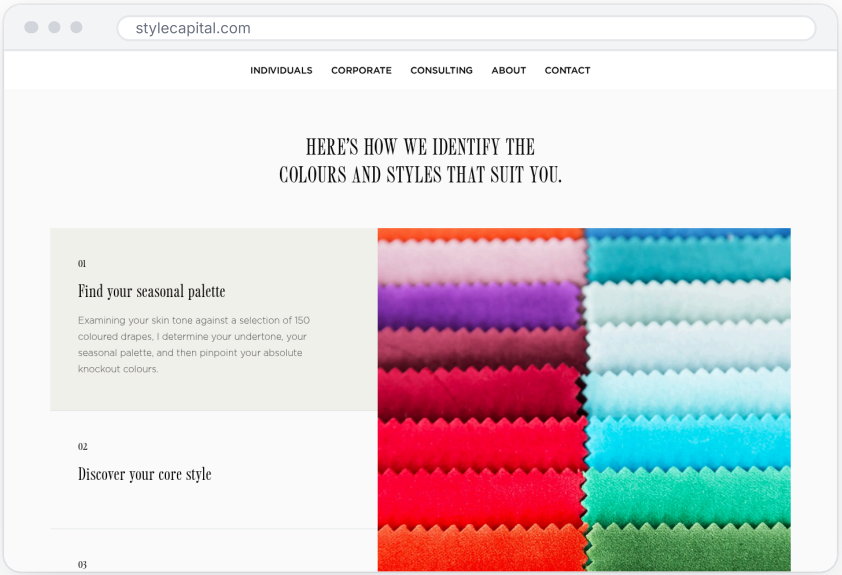

STACK

WordPress (custom theme) · Paid Memberships Pro · Google tag

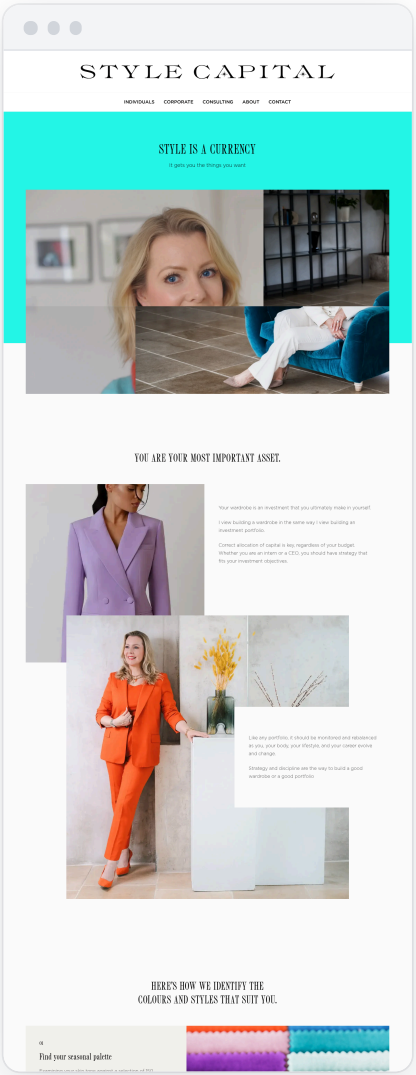

stylecapital.com →

Above the fold · desktop 1440 px

Step-by-step method section

Page flow · top of page

03 · FEATURED PROJECT 06 / 06

Veblen International

Recruitment · Beauty & Wellness

Two-sided funnel for a recruitment agency

Site for a beauty, wellness and lifestyle recruitment agency. The hero splits visitors into its two audiences right away, and each sector section leads deeper into the site.

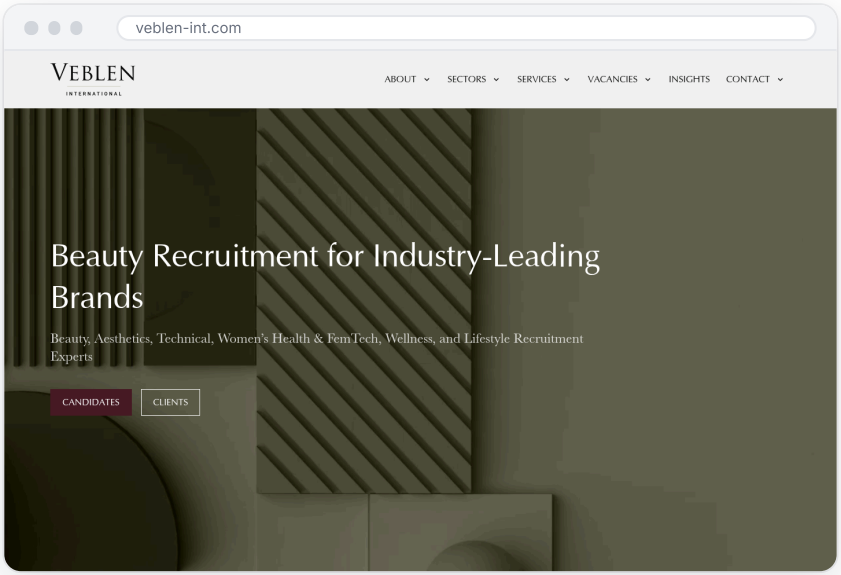

CONVERSION ELEMENTS

- Dual hero CTAs: “Candidates” and “Clients”
- Live Roles section with “View All Jobs”; “Upload a vacancy” and “Apply for a role” paths
- Sector pages (Beauty, Aesthetics, Technical, Wellness, Lifestyle) with “Learn More” CTAs
- Testimonials, team bios and “Get in Touch” contact CTA

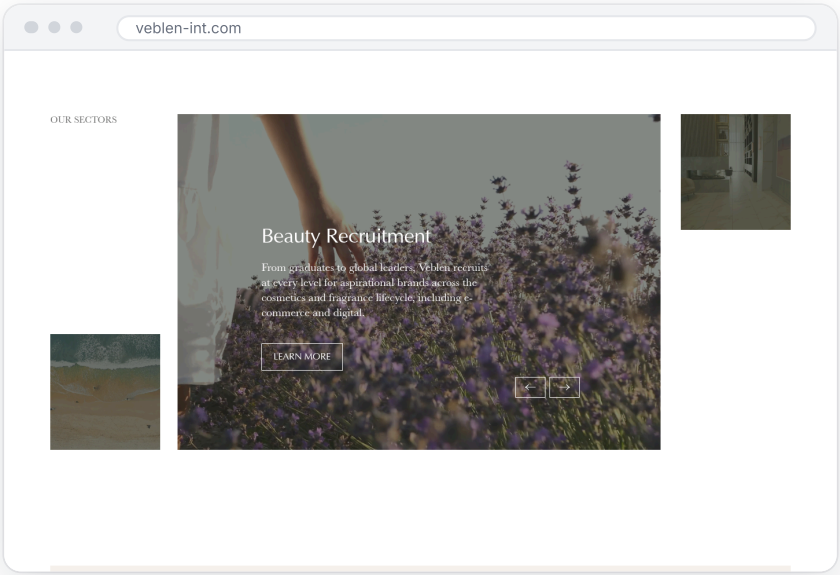

STACK

WordPress (custom theme) · Google tag · Microsoft Clarity

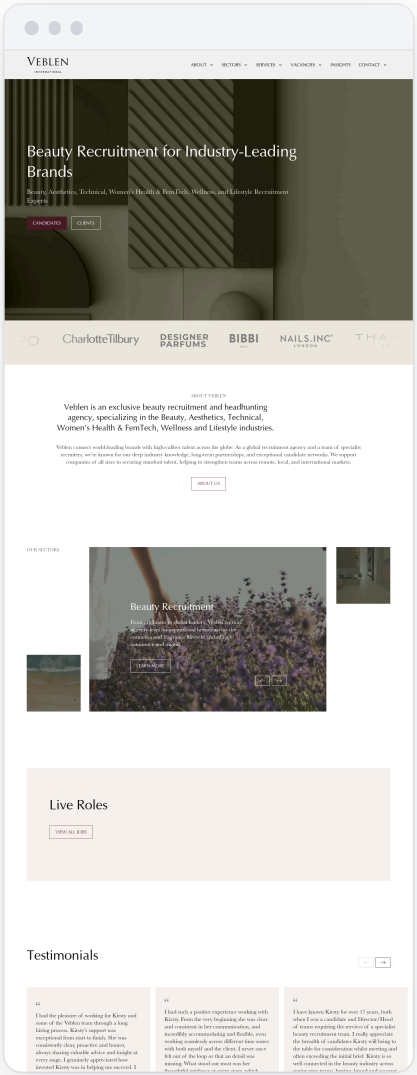

veblen-int.com →

Above the fold · desktop 1440 px

Sector section with Learn More CTAs

Page flow · top of page

04 · EXPERIENCE

From marketing-agency campaigns to e-commerce engineering

2026	**NTT DATA** Junior Engineer · Lima	Developed and maintained Magento e-commerce solutions with PHP, JavaScript and MySQL; resolved incidents and managed requirements using Git/Bitbucket, Docker/Podman and REST APIs.
